Why Emerging Leaders Works

Members of Emerging Leaders are at the forefront of positive community change. We offer wide-ranging opportunities for members to learn more about community issues and get involved in ways that meet their passion, schedule, and personal goals.

Emerging Leaders become deeply aware of how they can affect change in our world. They merge their professional talents and personal ambitions to become agents of change as volunteers, as active citizens, and as nonprofit board members.

Our Progress

Members have invested nearly $1 Million per year to help lift people out of poverty in our local community.
