Why Women United Works

When women invest in other women, they are truly unstoppable.

Women United donors work together to allocate funding that leads to better kindergarten readiness for kids and greater economic stability for women. This funding provides flexibility for programs to test and scale innovative approaches for even greater impact.

Our Progress

Women United members lead with generosity to empower women and children to reach their full potential.

Since 2003, Women United has:

- Supported: 3,100 women with financial stability
- 24,870+ children with high-quality early learning

Invested more than $6 million into the community
