

Assemble Laundry Pod Packs

Thank you for volunteering your time to make laundry pod packs! SNAP benefits, or food stamps, don't cover the cost of non-food items such as laundry detergent, so many people go without. Packaging laundry soap into smaller containers for families is a cost-effective way for those to receive the detergent they need. Individuals and families visiting food shelves or residing in shelters/transitional housing will receive the packs.

Instructions

1. Determine how many packs to assemble
2. Purchase supplies for your laundry packs (5 pods per pack)
 - a. Laundry pods in a bulk container
 - b. Ziploc bags (sandwich or quart size)
3. Print ingredients & directions insert
 - a. See page 2 of this document for template to print and cut into slips
 - b. Update highlighted **BRAND** with brand name of purchased detergent
4. Assemble your packs:
 - a. Write on outside of Ziploc bag with a permanent marker:
"Laundry Detergent – 5 loads"
 - b. Place 5 laundry pods into Ziploc
 - c. Add one printed insert into each bag
 - d. Seal Ziploc closed
5. Contact VolunteerUnited@gtcuw.org for drop-off instructions

BRAND Laundry Detergent

Enzyme-powered detergent delivers excellent stain removal performance, reducing the need for pre-soaking, pre-spotting and bleaching. Powerful freshening agent eliminates most odors. Non-phosphate formula.

Directions:

- Sort laundry, and then select water temperature. See garment care label for washing instructions.
- Add one packet of detergent to water / machine (not dispenser), then add clothes. Plastic wrapping around pod will dissolve during the wash cycle.
- Begin cycle. Wash and dry hands after handling pods.

Ingredients: Contains anionic and or/nonionic surfactants. Contains no phosphates. The cleaning agents in **BRAND Laundry Detergent** are biodegradable.
