

Who Wants to Be a Millionaire?

PowerPoint Navigation: Once you have clicked a dollar amount you will be brought to the question slide, from there you can click the question mark to be taken to the answer slide **OR** you can choose one of the lifeline options available in the black boxes (50:50, Phone a Friend, Ask the Audience).

If you click on the 50:50 lifeline, you will be taken to a slide with a reduced selection of answers. From there, click the question mark to be taken to the answer page.

If you click on the Phone a Friend lifeline, you will be taken to a countdown slide. The timer will begin when you click your mouse and then will countdown to zero. Remember, the question and answer options will no longer be visible during this time.

The Ask the Audience lifeline will be led by you. Allow for a few responses, then request a final answer before clicking the question mark that will take you to the answer slide.

Slide 4: When was United Way founded?

Answer: D = 1887

Notes: We’ve been working with the community for over 100 years, and we’re committed to supporting the community for the next 100 years.

Slide 5: 80% of a child’s brain development occurs by what age?

Answer: C = Age 3

Notes: 80% of brain development occurs by age 3, and during these critical years, many of poverty’s challenges can inhibit young children’s development and educational success. GTCUW envisions that parents and children in our region enter kindergarten ready to learn and thrive. (<http://www.urbanchildinstitute.org/why-0-3/baby-and-brain>)

Slide 6: In 2019, GTCUW touched the lives of how many people in our community?

Answer: D = 500,000

Slide 7: What percentage of young people experiencing homelessness identify as LGBTQ?

Answer: A = 40%

Notes: United Way Arise Project was established to bring caring professionals together to support the lives of LGBTQ homeless youth. This nationally recognized initiative has raised over \$1 million for local programs that help LGBTQ homeless youth feel safe and reach their full potential.

Slide 8: In 2017, Minnesotans visited food shelves how many times?

Answer: A = 3.4 million times

Notes: In 2017, Minnesotans visited food shelves 3.4 million times, marking 7 years in a row of record high usage. GTCUW envisions a healthy and equitable food system where all people in our 9-county region have access to high quality, culturally relevant food. (<http://www.hungersolutions.org/data-posts/food-shelves-see-record-number-of-visits-in-2017/>)

Slide 9: Across Minnesota, how many children are unable to access quality early childcare education?

Answer: B = 35,000

Notes: Access to quality early childcare and education programs is an effective strategy for combating the negative impacts of poverty on children. However, childcare is often unaffordable for families of low-income. More than 35,000 children across Minnesota are unable to access quality early childcare. Every child deserves the best possible start to life, regardless of income, race, or zip code. (<http://www.closegapsby5.org/>)

Slide 10: In 2019, GTCUW engaged and coordinated how many volunteers?

Answer: B = 50,000 volunteers

Notes: Last year, GTCUW coordinated over 50,000 volunteers who contributed to service projects in our community.

Slide 11: How many unfilled jobs is Minnesota projected to have by 2024?

Answer: A = 400,000

Notes: By 2024, Minnesota is projected to have 400,000 unfilled jobs. 63% of those jobs will require at least some education beyond high school, yet there's a wide gap in training to fill those positions. (<https://www.mncompass.org/pdfs/compass-points-2017.pdf>)

Slide 12: Where does Minnesota rank in the nation for on-time graduation of African American and Latino students?

False answers: 1st, 24th, 38th

Answer: D = 50th

Notes: Minnesota's high school graduation rate has steadily increased, improving to 84% in 2018, and rates have improved across all races and ethnicities. But in a national comparison of graduation rates, Minnesota ranks in the bottom of states. While there has been gradual improvement in the education gap over the last four years, we envision a region where all youth are equipped with the knowledge, skills, mindsets and relationships to choose and direct their own future path and contribute to their communities.

(<https://www.mncompass.org/education/overview>)

Slide 13: Educational disparities for youth translate into income disparities for adults. What is the annual wage gap between people of color and their white neighbors?

Answer: C = \$33,400

Notes: GTCUW believes all adults deserve the opportunity to earn a family-sustaining wage and thrive, regardless of income, race, or zip code.

Slide 14: In 2019, GTCUW nonprofit partners served how many meals?

False answers: 500,000 meals, 6.6 million meals, 12.7 million meals

Answer: A = 16.0 million meals

Notes: The emergency food system fills an enormous gap in the nutritional needs of people in our state. It is made up of programs like food shelves and meal programs that support individuals, families, and community. GTCUW envisions a healthy and equitable food system where all people in our 9-county region have access to high quality, culturally relevant food.

Slide 15: Out of the 100 largest cities in America, where does the Minneapolis-St. Paul region rank for economic inclusion?

Answer: C = 88th out of 100

Notes: According to a Brookings report for the 2016-17 period, Minneapolis-Saint Paul ranks among the “Worst Performing” of 100 metro areas for economic inclusion (88th) and for racial inclusion (92nd). Economic inclusion means the equality of opportunity for all members of a society to participate in the economic life of their community. GTCUW believes all adults deserve the opportunity to earn a family-sustaining wage and thrive, regardless of income, race, or zip code. (<https://www.brookings.edu/research/metro-monitor-2019-inclusion-remains-elusive-amid-widespread-metro-growth-and-rising-prosperity/>)

Slide 16: On any given night, how many people experience homelessness in the Twin Cities?

Answer: B = 6,700+ people

Notes: Since 2015 this is a 9% increase in homelessness in the metro, and a 13% increase across greater Minnesota. GTCUW envisions a region in which all people have safe, affordable, and stable homes and where experiences of homelessness are rare, brief, and nonrecurring. (<http://mnhomeless.org/minnesota-homeless-study/homelessness-in-minnesota.php>)

Slide 17: For a family of four with both parents working full time, each adult must earn how much per hour to meet their basic needs in the Twin Cities?

Answer: A = \$23.88/hour

Notes: The cost of living in the Twin Cities has outpaced wages, and as a result, many of our neighbors cannot afford basic needs. Career-focused job skills training and financial services are critical pieces to people gaining financial stability. GTCUW envisions a region where all adults have the opportunity to participate in the workforce and advance toward family-sustaining wages. (<https://mn.gov/deed/data/data-tools/col/>)

Slide 18: The United Way 2-1-1 referral line helped connect Minnesotans to how many referrals last year?

Answer: C = 459,793 referrals

Notes: 2-1-1 is a **free and confidential** service that connects people in need to resources such as housing, food, and more – available 24 hours a day, seven days a week. You can contact 2-1-1 by phone, text or web chat.
